

IT Infrastructure Services for Small Medium and Corporate Business

Who is VirtuaTech Consulting?

Founded in 2008, VirtuaTech Consulting provides IT Infrastructure Services and Solutions to Small Medium business with a focus on best practise standards and customer service excellence.

We provide our clients with the best and most suitable solutions to enable their strongest position for growth and success without 'breaking the bank'.

VirtuaTech Consulting will deliver on our promise and take on accountability without avoiding responsibility.

Our goal is to be an exceptional company and an outstanding IT service provider. A company that puts the client first and red tape last. One that works as a unified team to be the best and one that earns confidence and respect by being the best.

We strive for excellence in ourselves and aim to continually exceed your expectations, time and time again.

Our Success

Our success is measured by the partnerships we form with our clients and the relationships we enjoy with our staff. We consider strong, respectful and long lasting relationships the key success criteria for our business.

VirtuaTech Consulting has successfully delivered services and solutions to a variety of industries including:
